

## **LANDFILL LIFE ADVISORY COMMITTEE - MANDATE**

- Committee Composition: 2 Councillors  
1 Operations/Public Works Supervisor  
1 Mining Representative  
1 Ministry of Natural Resources (MNR) Representative  
1 Green Committee Representative  
1 Communities in Bloom Representative  
4 Members of the Public
- Meetings: Monthly or as determined by Committee.
- Chairperson: To be selected by Committee from non-municipal members.
- Stipend: None; unless out of town travel is required, then the Municipality of Red Lake's Travel Policy shall apply.

### **THE RECOGNITION, ROLE AND MANDATE OF THE ADVISORY COMMITTEE**

#### **Recognition**

- Recognize the values and visions of the Municipality as defined in the Strategic Plan.
- Recognize that landfill and environmental services cannot be solely provided through taxation.
- Recognize that the residents of Red Lake require an affordable and efficient waste diversion program that provides for long term life of the current landfill site.

#### **Role**

- Be concerned with a community awareness program that enlightens the users or the importance of waste diversion.
- Be concerned with designing and recommending policy and procedures pertaining to landfill and environmental practices.
- Be concerned with community and user groups or individuals who may wish to approach the committee with a related matter or issue.
- Be concerned with changes in the trends of area needs and requirements in landfill and environmental matters.
- Be concerned that any policies developed and recommendations are consistent and applicable to all municipal by-laws and provincial legislation.

#### **Mandate**

- The Committee should endeavor to identify local needs, develop local solutions and make recommendations to Council that encourages an array of modern environmental services. The Committee shall endeavor to attain a waste diversion rate of 65%.
